10/11/2013 THE OBJECTIVE

COMMERCIALIZATION OF TECHNOLOGIES INNOVATED BY ME IS THE MAIN OBJECTIVE HERE

10/11/2013 THE MOTIVE

NOT THE PLASTICS ONLY THE PRINCIPAL AIM OF MY RESEARCHES AND TECHNOLOGY DEVELOPMENTS ARE TO REPOSE THE EARTH AND ENVIRONMENT FROM SUCH IMPERATIVE POLLUTION CAUSED BY LAMINATED PACKAGING INDUSTRIAL WASTE!

Message

With certain reputed as well as well skilled patent attorneys, based on Delhi, I have made an assessment over the physical value of my intellectual property right in India as well as the FTO, that is, the Freedom to Operate of the technology for the Indian 1st Patent alone.

FTO Report for commercialization in India observed that, there are no patents blocking the technology and commercialization of the process covered by concern patent per se.

The intractable concern "Gordian Knot" of laminated packaging waste management is solved by a bold singular struggle by the Individual Indian Inventor here itself e-contrario! With deep pain I have encountered a good amount of apathy to recycle the waste by keeping conventional management practices of disposal of materials to vendors despite my appeal for recycle under my patented process. I wonder how long should be enjoy the complacency by sweeping a giraffe under the carpet!

I dream no Laminated Packaging Industrial Refuse should intervene the content of Earth & Environment and should go for respective recycle to earn additional revenue !! In my website I have used the picture of INTERNATIONAL SPACE STATION, a picture from NASA website. My objective is to give message that should we now use this station for dumping of the laminated waste of packaging materials rather than progress for further space researches for which exactly it is used.

So.....

CURSUM PERFICIO!

GAUDEAMUS IGITUR!

PATENTED TECHNOLOGIES ON DE-LAMINATION AND RECYCLE

Dealmination is possible now in a mechanized manner including the waste of Barcode TTR waste in both Roll forms and in fragments forms
